

# Software License Disclosure

**Mid-Texas Legal Services  
123 Anywhere Lane, Suite 45  
Midtown, TX 77339**

Installed on all desktops and laptops that TAJF distributed to your organization are licensed versions of the following products:

- Microsoft Windows XP Professional with optional upgrade to Windows Vista Business
- Microsoft Office 2003 Standard with optional upgrade to Microsoft Office 2007 Standard
- Adobe Acrobat Standard v.8
- Symantec AntiVirus Corporate Edition

If you received a scanner, you would have also received retail versions of ScanSoft PaperPort 11 Standard and ScanSoft OmniPage 16 Standard. ScanSoft product licensing and product keys accompany the software packaging.

In order to obtain the most advantageous pricing, TAJF purchased the Microsoft, Adobe and Symantec software licenses in volume. **However, ownership of and responsibility for the software licenses transfer to Mid-Texas Legal Services upon receipt of the equipment. It is important that your organization is aware of and understands the limitations on the use of this software.**

## **Windows XP Professional with Optional Upgrade to Windows Vista Business:**

### **Licenses for 17 computers, specifically licensed to each computer**

The Operating System, Microsoft Windows XP Professional with optional upgrade to Windows Vista Business, comes “in the box” with your new Dell computer and is installed as Original Equipment Manufacturer (OEM). You CANNOT install this software on any other computer unless in accordance with the license included with the computer. For the Dell computers distributed by TAJF, the safest way to think of the Operating System is: “When the computer dies, the license dies.” The product key for the Operating System is located on the computer itself.

TAJF purchased the computers with Windows XP Professional installed. However, the option to upgrade the Operating System to Windows Vista Business was included at no additional cost to TAJF or to Mid-Texas Legal Services. You may upgrade at any time should you decide to do so. Requirements and licensing for this upgrade are included with your Dell computer.

## **Microsoft Office 2003 Standard:**

### **Licenses for 17 concurrent installations, either Office 2003 or Office 2007**

Microsoft Office 2003 Standard is installed on each new Dell computer using volume licensing for Microsoft Office 2007 Standard. This means that your organization can upgrade to Microsoft Office 2007 Standard at any time you wish. Also, this license does not restrict the computers on which Office can be installed. In other words, you can install Office on any machine you wish even if it was not one distributed by TAJF. However, Mid-Texas Legal Services is responsible for remaining in compliance and ensuring that no more than a combined total of 17 copies of Office 2003 and 2007 are installed using licensing provided by TAJF at any given time.

The license and product key information for **17 Copies** of Microsoft Office:

Agreement	License	Product	Product Key
1234567890ABC	87654321	Office 2003 Office 2007	988UA-KJS6K-874JK-MSD13-9FDFE 54DF5-74DSK-ADFG8-45DFS-DSAS2

**Adobe Acrobat Standard v.8:**

**Licenses for 17 concurrent installations of Adobe Acrobat Standard**

Adobe Acrobat Standard v.8 is installed on each new Dell computer using volume licensing. This is the most current version of Acrobat and there is no upgrade option. Like Microsoft Office, this license does not restrict the computers on which Acrobat can be installed, so long as Mid-Texas Legal Services remains at or below the TAJF provided license limit of 17 copies at any one time.

The license and serial number information for **17 Copies** of Adobe Acrobat:

Component Description	SKU	Win Serial Number
Adobe Acrobat 8.0 WIN	87654321LR	8768-4986-5465-4188-6468-5415

**Symantec AntiVirus Corporate Edition:**

**Licenses for 17 concurrent installations Symantec AntiVirus Corp. Edition**

Symantec AntiVirus Corporate Edition is installed on each new Dell computer using volume licensing. This is the most current version of Symantec and there is no upgrade option, however the software will update and upgrade itself according to the options you select for the duration of the subscription ending November 19, 2008. Like Microsoft Office, this license does not restrict the computers on which Symantec can be installed, so long as Mid-Texas Legal Services remains at or below the TAJF provided license limit of 17 copies at any one time.

The license and serial number information for **17 Copies** of Symantec AntiVirus Corporate Edition:

Part Code	Description	Serial Number	Support Identifier
12706474	AntiVirus Corp. Ed. Software	RTSM 6000-1651-5354-1835-4543
